Clean Up Concluded:

Risk Evaluation:

There is no immediate risk to human health and environment.

Areal Extent:

Potential Environmental Impacts:

All released fluids were contained to the secondary containment of the tank battery. No released fluids pose a threat to surface or ground water.

Action Taken or Planned:

Off loading operations were ceased and fluid recovery activity began. We were able to recover all 20 bbls of oil and produced water with a vacuum truck. The overflow tanks will be washed for surface staining of oil and the impacted ballast material in the tank battery secondary containment will be treated with a biological amendment that will consume the remaining hydrocarbons.

Wastes Disposal Location: All recovered fluids will be disposed of in a permitted disposal well operated by Cobra Oil & Gas Corporation.
